

Meese Family Aquatic Center

Let's go Swimming!

The Meese Family Aquatic Center features a 45' by 75' saline pool ranging from 3' to 9' deep, including a new UV-light filtration system that enhances the cleanliness of the pool water. The warm water pool is set at a temperature that is ideal for children and seniors. There is also an 11' by 13' therapy pool set at 102°. Both the pool and therapy pool have lift chairs for handicap access. Locker rooms, changing stalls, lots of deck space and incredible views make this a facility that can be enjoyed by all.

Monday – Friday

Open and Lap Swim
(2 Lanes)
8:00a–6:00p

Sunday

Open and Lap Swim
(2 Lanes)
10:00a–6:00p

Meese Family Aquatic Center Frequently Asked Questions

Q: Are there age restrictions for the pool?

A: Many of our age restrictions are for the safety of our members. For this reason we ask that all children under age 13 using the pool be accompanied by an adult. Additionally, we allow use of the spa only by members 15 years of age and older. Children between 8–14 years of age must be accompanied in the spa by an adult. No child under the age of 8 is allowed in the spa or the spa room.

Q: Why do I need to shower before entering the pool and spa?

A: Oregon State Law OAR.333.60.210.3 states: There is a "requirement for a cleansing shower before entering the pool. A cleansing shower is a full body soap shower and rinse prior to entering the pool or spa". By showering off before getting into the pool you remove any dirt, sweat, and chemicals that may be on your body and helps us maintain better water quality for all of our swimmers to enjoy.

Q: What type of sanitation is used in the pool?

A: Our pool is a saline (saltwater) pool. This does not mean it is chlorine free. All public pools require a form of sanitation. In a saline pool the chlorine is produced naturally from the salt (sodium chloride) as needed to meet state requirements. We have also added a UV-light filtration system for increased water cleanliness.
